The Hong Kong LEGO® Users Group (HKLUG) is formed in 2007 by a group of LEGO® enthusiasts in Hong Kong SAR, China. HKLUG is a non-profit-making Organization with the aim to promote LEGO® through creating high-quality art works.

As you may observe, although we do not have as many resources & bricks as other LUGs in the world, we create many attractive and professional designs with fluent skills and originality ideas. We believe that creations are not limited by resources but the idea in mind, the techniques on our hands and the persist in our hearts.
